Assignment 9

The due date for submitting this assignment has passed.
As per our records you have not submitted this assignment.

Due on 2019-10-02, 23:59 IST.

1) Code review does not target to detect which one of the following types of errors: *1 point*

○ a. Logical error
○ b. Algorithmic error
○ c. Syntax error
○ d. Programming errors.

No, the answer is incorrect.
Score: 0

Accepted Answers:
c. Syntax error

2) When is code review performed during software life cycle? *1 point*

○ a. After unit testing
○ b. After coding and compiling
○ c. During integration testing
○ d. During system testing

No, the answer is incorrect.
Score: 0

Accepted Answers:
b. After coding and compiling

3) Cleanroom technique does not use which one of the following activities? *1 point*

○ a. Code walkthrough
○ b. Code inspection
○ c. Formal verification for bug removal
○ d. Testing of code by executing it

No, the answer is incorrect.
Score: 0

Accepted Answers:
d. Testing of code by executing it

4) In a slip chart, the more the slip line bends, *1 point*

○ a. The greater is the variation from the plan.
○ b. The smaller is the variation from the plan.
○ c. No change happens in the plan.
○ d. None of the above.

No, the answer is incorrect.
Score: 0

Accepted Answers:
a. The greater is the variation from the plan.

5) Which of the following charts shows the slippage of the project completion date through the life of the project? *1 point*

○ a. Gantt chart
○ b. Slip chart
○ c. Timeline chart
○ d. PERT chart

No, the answer is incorrect.
Score: 0

Accepted Answers:
c. Timeline chart

6) Which one of the following methods is preferred for assigning an earned value (EV) in software projects? *1 point*

○ a. The 0/100 technique
○ b. The 50/50 technique
○ c. The 75/25 technique
○ d. The milestone technique

No, the answer is incorrect.
Score: 0

Accepted Answers:
a. The 0/100 technique

7) Suppose, the work with a PV of Rs. 40,000 should have been completed by now. In fact, some of that work has not been done, so that the EV is only Rs. 30,000. What is the value of Schedule Variance (SV)? *1 point*

○ a. 10000
○ b. -10000
○ c. 70000
○ d. None of the above

No, the answer is incorrect.
Score: 0

Accepted Answers:
b. -10000

8) The cost performance index (CPI) is given by which of the following expressions? *1 point*

○ a. CPI = AC/EV
○ b. CPI = EV/AC
○ c. CPI = AC*EV
○ d. CPI = EV-AC

No, the answer is incorrect.
Score: 0

Accepted Answers:
b. CPI = EV/AC

9) Which one of the following would equal EV/PV? *1 point*

○ a. SPI
○ b. CPI
○ c. SV
○ d. CV

No, the answer is incorrect.
Score: 0

Accepted Answers:
a. SPI

10) Assume that a medium-sized project is experiencing considerable schedule slippage. Which one of the following may not help to get the project back on schedule? *1 point*

○ a. Shortening the critical path
○ b. Altering the activity precedence requirements
○ c. speeding up non-critical path activities
○ d. Reducing scope of the project

No, the answer is incorrect.
Score: 0

Accepted Answers:
c. speeding up non-critical path activities
